A Framework for Applying Structured Teaching across the School Day for Students with Autism Spectrum Disorders

With Chris Knippenberg, MS/OTR/L, ATP; Linda Mulley, M. Ed, CAGS; and Kathryn Whitaker, Special Educator and Autism Consultant

Date: July 8, 9, & 10, 2010 (Thursday, Friday, Saturday)

Location: Manchester, VT (exact location to be determined)

Time: 8:00 a.m. – 4:00 p.m.

This workshop is an intensive, intermediate-level training for teams using principles of structured teaching as part of their programming for students with autism spectrum disorders. Participant teams will focus on one target student while completing a framework planning tool and planning binder, determining appropriate structure across learning settings, designing an array of learning tasks, as well as planning for efficient data collection and analysis. Resources for developing effective family involvement will be provided.

Who should attend:

- Teams of 2-4 members working with one target student, **must include** a special educator or administrator familiar with that student.
- Schools may send more than one team.
- Priority will be given to teams with Parents and Related Service providers.

Prerequisite: Team participants must have knowledge of structured teaching through attendance at Level 1 TEACCH Classroom training or mentoring/on-the-job training around structured teaching; and/or are presently using structured teaching strategies.

Fee: \$350.00 per person includes daily snacks and beverages. There are a limited number of scholarships and partial scholarships for parents and related service providers on a first-come, first-served basis.

Registration: More information will be available at a later date
